VoiceBox Intelligent Transcription

Streamline your medical correspondence from dictation to delivery

VoiceBox Intelligent Transcription (VoiceBox IT) is an end-to-end dictation-to-transcription solution designed by doctors for doctors. VoiceBox IT is accessed via a fully secure and data-protected smartphone app where you can record, format and deliver transcripts at the touch of a button. With VoiceBox IT, medical staff can spend less time on paperwork, and more time on patients.

Dictation-to-transcription software

AI-powered with a human touch

Accessed via secure smartphone app

Reliable and efficient

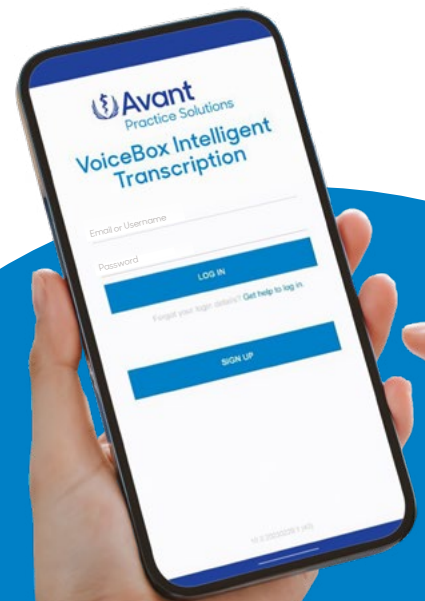

VoiceBox IT uses artificial intelligence (AI) to complete rapid voice-to-text transcription. Every transcription is reviewed and formatted by our Australian-based team of medical proofreaders.

Convenient

VoiceBox IT integrates with leading practice management systems and dictation lists are pre-filled with patient and referrer details from an integrated appointment book.

Accurate and on-time

Minimum 50% of records returned within two business days, with 98% accuracy¹.
