

Avant for practices

PracticeIT

A technology partnership you can trust

Running a successful medical practice requires more than just excellent care. Many healthcare providers operate with outdated, inefficient IT systems—leading to:

- Increased downtime
- Greater vulnerability to threats
- Compliance risks

That's why Avant has partnered with REND Tech—to empower your practice with cutting-edge IT solutions designed specifically for the healthcare environment.

Why choose PracticeIT?

Built to meet rigorous standards of clinical environments.

Seamless integration with your current clinical software.

End-to-end support – from setup to maintenance.

Secures sensitive data from internal and external threats.

Boosts efficiency & reduces doctor frustration.

Discover the right package for you:

Server-based packages

Built on scalable hardware, the server-based packages are designed to grow with your practice needs.

Explore the ways the server-based packages could assist your practice:

- High performance servers engineered to handle the demands of modern healthcare data and applications
- Business grade hardware
- Ideal for server-based clinical applications.

Cloud based packages

For cloud-based clinical applications, the cloud-based packages provide unlimited support and access to clinical software systems without the need to invest in expensive services.

Explore the ways the cloud-based packages could assist your practice:

- Eliminates the need for physical servers and unreliable VPN connections
- Offer high backup retention strategies
- Enable access to all your clinical and business applications, plus related data, from anywhere
- Integrates with Tyro terminals, HPOS and other billing tools.

Ready to transform your healthcare operations using innovative technology?

Get personalised advice on the right IT setup for your practice—no pressure, just expert support.
